

## Adam Nakar – Insolvency Practitioner

### **Tell us about your role**

As a Licensed Insolvency Practitioner I manage a range of insolvency cases from start to finish, dealing with anything, everything and everyone that comes up on them. I also take initial calls and meetings, giving insolvency advice to those who need it.

### **Describe WSM in three words**

Homely, busy and close.

### **How have you been developed since working at WSM?**

I am not an accountant by background, but have been put through CFAB, the first year of ACA to improve my skills in these areas.

### **How would you describe the culture at WSM?**

Expecting, but relaxed. You need to perform – but you are trusted, not forced, to do so.

### **What is the best thing about working at WSM?**

Our close team in the Kingston office.

### **What do you like best about working in Kingston?**

The location. Working in my home town, with a busy centre and business district, the river and a range of shops and restaurants all just around the corner.

### **What inspires you to succeed every day?**

Knowing that people – both staff and clients are counting on me to do a good job.
